PROFESSIONAL SUMMARY

Full-stack developer with 4.5 years of professional front-end experience delivering responsive, production-facing experiences for Gap brands across global markets. Builds complete products with React, TypeScript, React Native, Expo, Supabase, and PostgreSQL, with hands-on experience spanning user interfaces, authentication, database design, security policies, storage, serverless functions, and deployment workflows.

TECHNICAL SKILLS

Languages & UI: TypeScript, JavaScript (ES6+), React, React Native, Expo, HTML5, CSS3, SCSS, responsive design

Backend & Data: Supabase, PostgreSQL, Node.js, Express.js, REST APIs, authentication, row-level security, Edge Functions

Tools & Delivery: Git, GitHub, GitHub Actions, EAS, Firebase, Optimizely, npm, Webpack, Chrome DevTools

PROFESSIONAL EXPERIENCE

Front-End Web Developer | Gap Inc.

May 2021 - Nov 2025 | San Francisco, CA

- Delivered production-ready homepage and campaign experiences across mobile and desktop for Gap US, Canada, Factory, Japan, and Europe.
- Built and maintained reusable front-end solutions with React, JavaScript, HTML, CSS, SCSS, JSON, and jQuery in a large-scale retail environment.
- Partnered with designers, product managers, marketers, and cross-functional teams to turn business requirements into responsive, accessible customer experiences.
- Implemented A/B experiments with Optimizely and supported testing, debugging, and release quality across regional storefronts.

SELECTED PROJECTS

Founder & Full-Stack Developer | WaveLens

2026 - Present

github.com/jabinx92/surf-app

- Built a cross-platform marketplace with Expo, React Native, and TypeScript that connects surfers with local photographers and videographers.
- Implemented authentication, creator applications and approvals, editable profiles and portfolios, weekly availability, booking requests, messaging, notifications, reviews, reporting, and admin moderation.
- Designed the Supabase/PostgreSQL backend with migrations, row-level security, storage, and an account-deletion Edge Function; configured EAS environments and GitHub Actions automation.

Developer | JonathanWon.com

Personal Portfolio

- Built and deployed a responsive Gatsby/React portfolio showcasing professional experience and selected projects; hosted with a custom domain and automated Git-based delivery.

ADDITIONAL EXPERIENCE

Order Processor Specialist, Global Syn-Turf | 2018 - 2019 • Operations Coordinator, Comba Telecom | 2017 - 2018
