

Jonathan Won

FULL-STACK SOFTWARE ENGINEER

San Francisco, CA | 925-548-7768 | jabinx92@gmail.com
jonathanwon.com | linkedin.com/in/jonathanwon | github.com/jabinx92

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 4.5 years of professional front-end development experience delivering responsive, production-facing web experiences for Gap brands across global markets. Builds end-to-end products with React, TypeScript, React Native, Expo, Supabase, PostgreSQL, SQL, REST APIs, authentication, database design, and CI/CD workflows.

TECHNICAL SKILLS

Languages & Frontend: TypeScript, JavaScript (ES6+), React, React Native, Expo, HTML5, CSS3, SCSS, responsive web design

Backend & Data: Supabase, PostgreSQL, SQL, Node.js, Express.js, REST APIs, API integration, authentication, row-level security, Edge Functions

Tools & Delivery: Git, GitHub, GitHub Actions, CI/CD, EAS, Firebase, Optimizely, npm, Webpack, Chrome DevTools

WORK EXPERIENCE

Front-End Web Developer | Gap Inc. | May 2021 - Nov 2025 | San Francisco, CA

- Delivered production-ready homepage and campaign experiences across mobile and desktop for Gap US, Canada, Factory, Japan, and Europe.
- Built and maintained reusable front-end solutions with React, JavaScript, HTML, CSS, SCSS, JSON, and jQuery in a large-scale retail environment.
- Partnered with designers, product managers, marketers, and cross-functional teams to translate business requirements into responsive, accessible customer experiences.
- Implemented A/B testing with Optimizely and supported debugging, quality assurance, and production releases across regional storefronts.

PROJECTS

Founder & Full-Stack Developer | WaveLens | 2026 - Present

github.com/jabinx92/surf-app

- Built a cross-platform marketplace with Expo, React Native, and TypeScript that connects surfers with local photographers and videographers.
- Developed authentication, creator applications and approvals, editable profiles and portfolios, availability, booking requests, messaging, notifications, reviews, reporting, and admin moderation.
- Designed the Supabase and PostgreSQL backend with SQL migrations, row-level security, storage, and an account-deletion Edge Function; configured EAS environments and GitHub Actions CI/CD automation.

Developer | JonathanWon.com | Personal Portfolio

- Built and deployed a responsive Gatsby and React portfolio showcasing professional experience and selected software projects, with a custom domain and Git-based deployment workflow.

ADDITIONAL EXPERIENCE

Order Processor Specialist, Global Syn-Turf | 2018 - 2019 | Operations Coordinator, Comba Telecom | 2017 - 2018

EDUCATION

San Francisco State University | Bachelor of Science in Business Marketing
